

A background image of a business meeting in a modern office with large windows. Several professionals in business attire are seated around a conference table, engaged in discussion. A semi-transparent dark blue rectangle is overlaid on the left side of the image, containing the title and subtitle. A light yellow grid pattern is overlaid on the entire image.

Human-Centred AI Litreadiness

Preparing your workforce for the future of work.

The AI Adoption Chasm

Organisations are instructing their people to transform, but employees are left trying to make sense of AI tools in a vacuum. Investment alone does not create readiness.

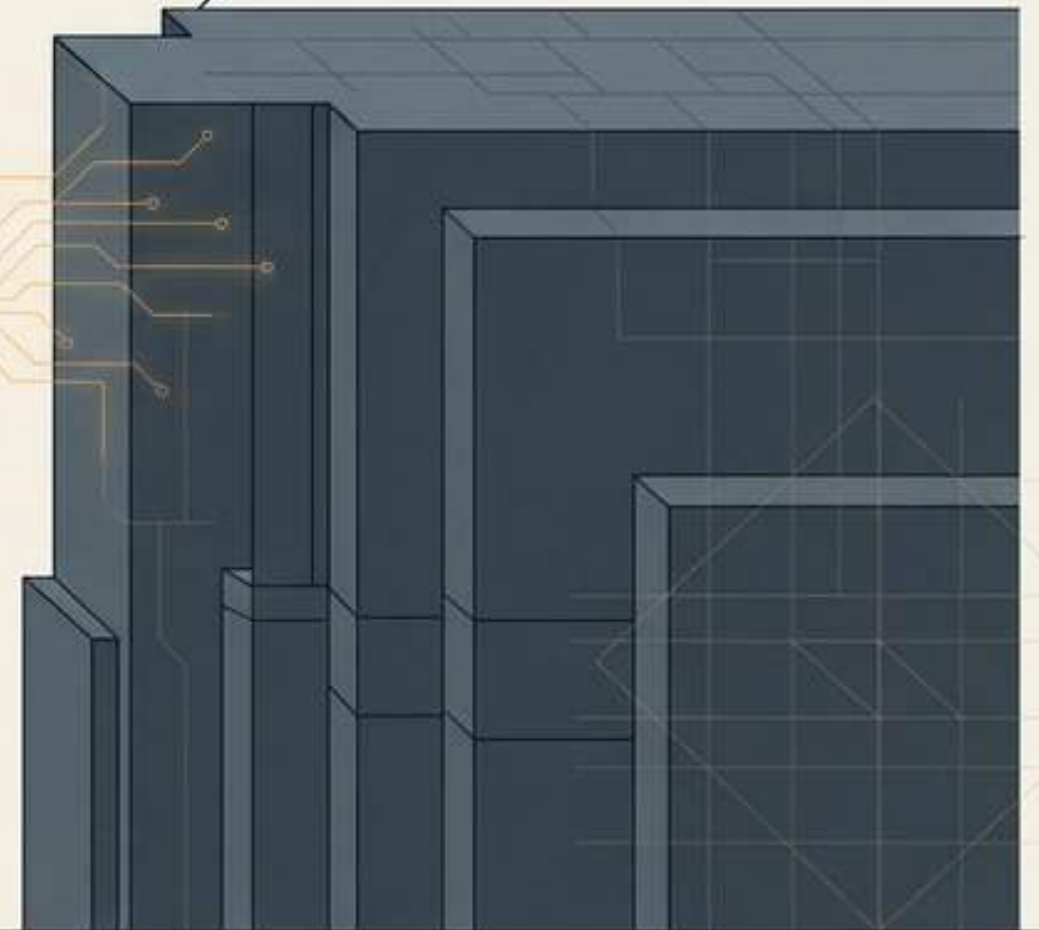

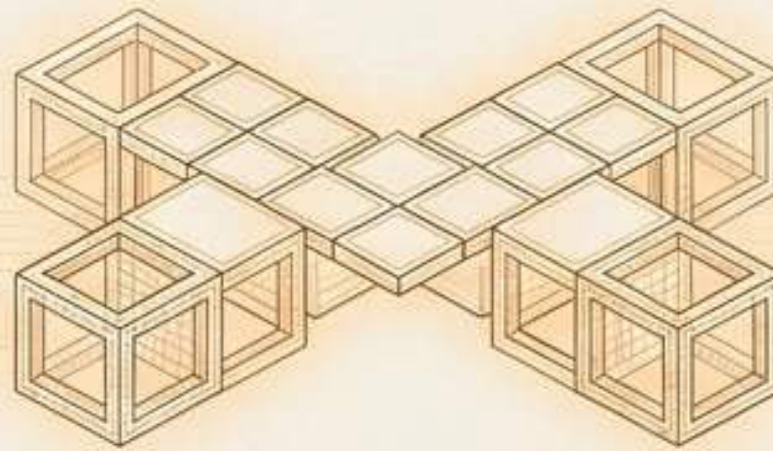

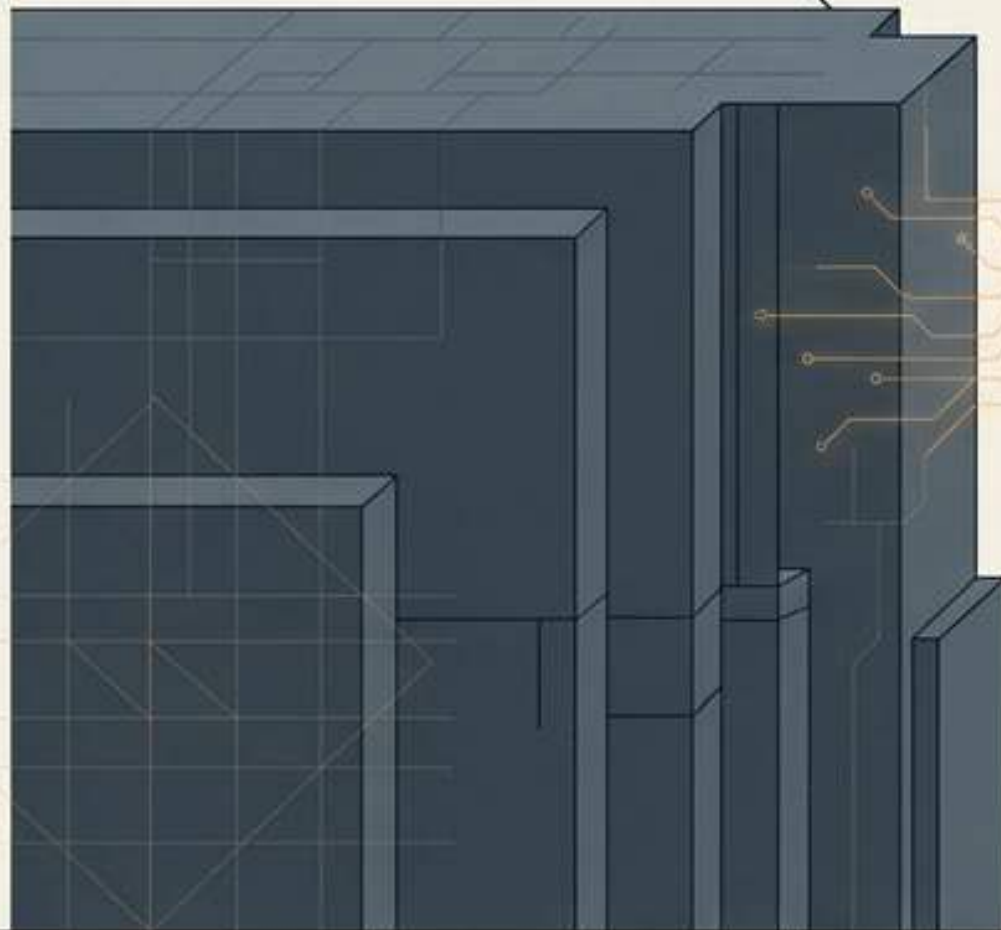

The Mandate:

Rapid AI Investment &
Executive Mandates
(‘Adopt AI’, ‘Transform’)

The Practical Learning Foundation

The Outcome:

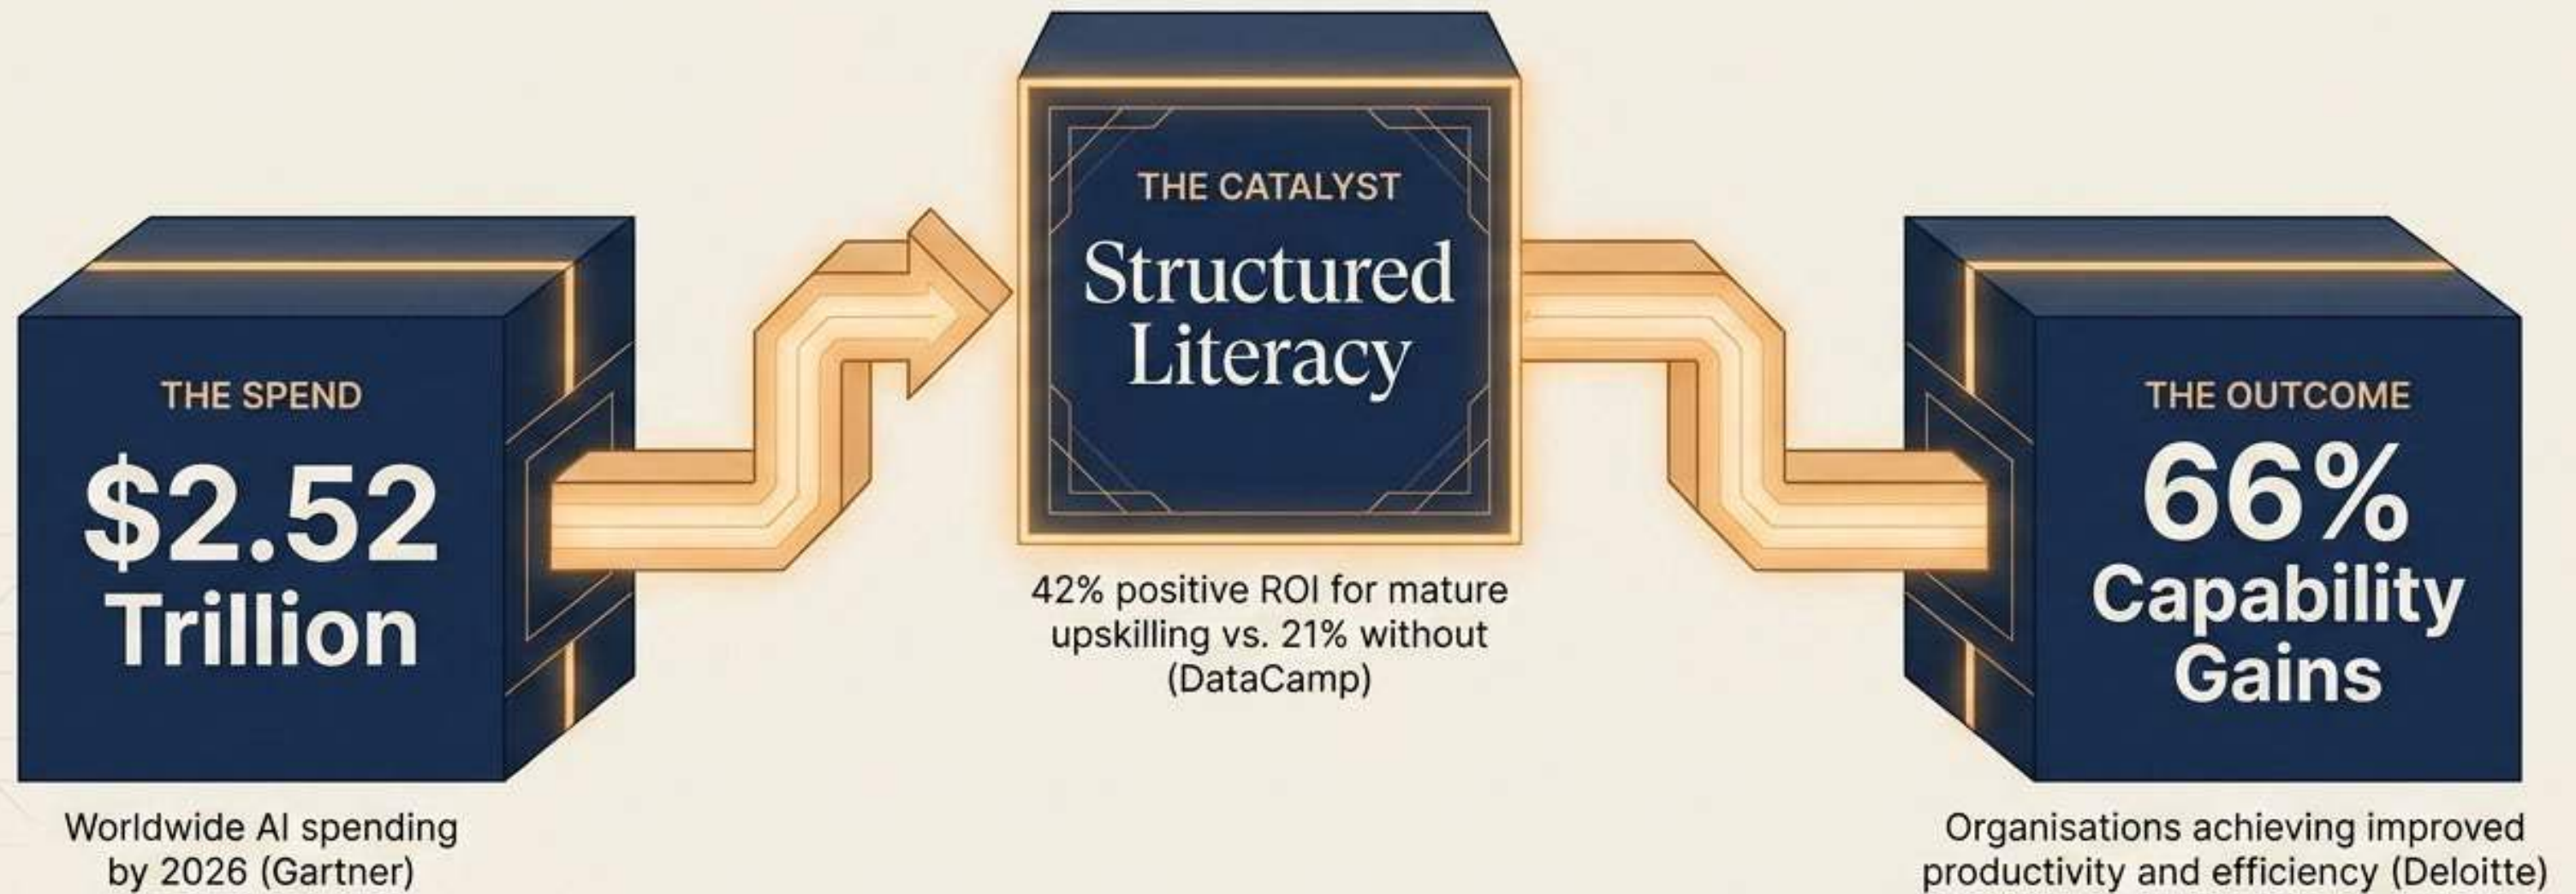

Actual Business Value,
Productivity & ROI

The Exponential Multiplier of Human Capability

AI spending is skyrocketing, but the ultimate success of that investment depends entirely on human upskilling.

The ROI Triangle

The Cost of Starting from a Blank Page

The Build vs. Deploy Diagnostic Table

Build Internally

- 6-12 Months to Launch
- Massive L&D Resource Drain (writing, worksheets, planning)
- Fragmented Content Comprehensiveness
- Slow Iteration Speed
- High Hidden Costs

Deploy a Ready Foundation

- ✓ Immediate Launch Capability
- ✓ Minimal Resource Drain (focus on adaptation, not creation)
- ✓ Enterprise-wide Comprehensiveness
- ✓ Agile Iteration
- ✓ Fixed Predictable Cost

The Anatomy of a Ready-to-Deploy Lesson

This is not just reading material. Every module cascades into practical business tools that force immediate application and behaviour change.

Asset 1: Editable Text-Based Course Content

Asset 2: Action Items & Reflection Exercises

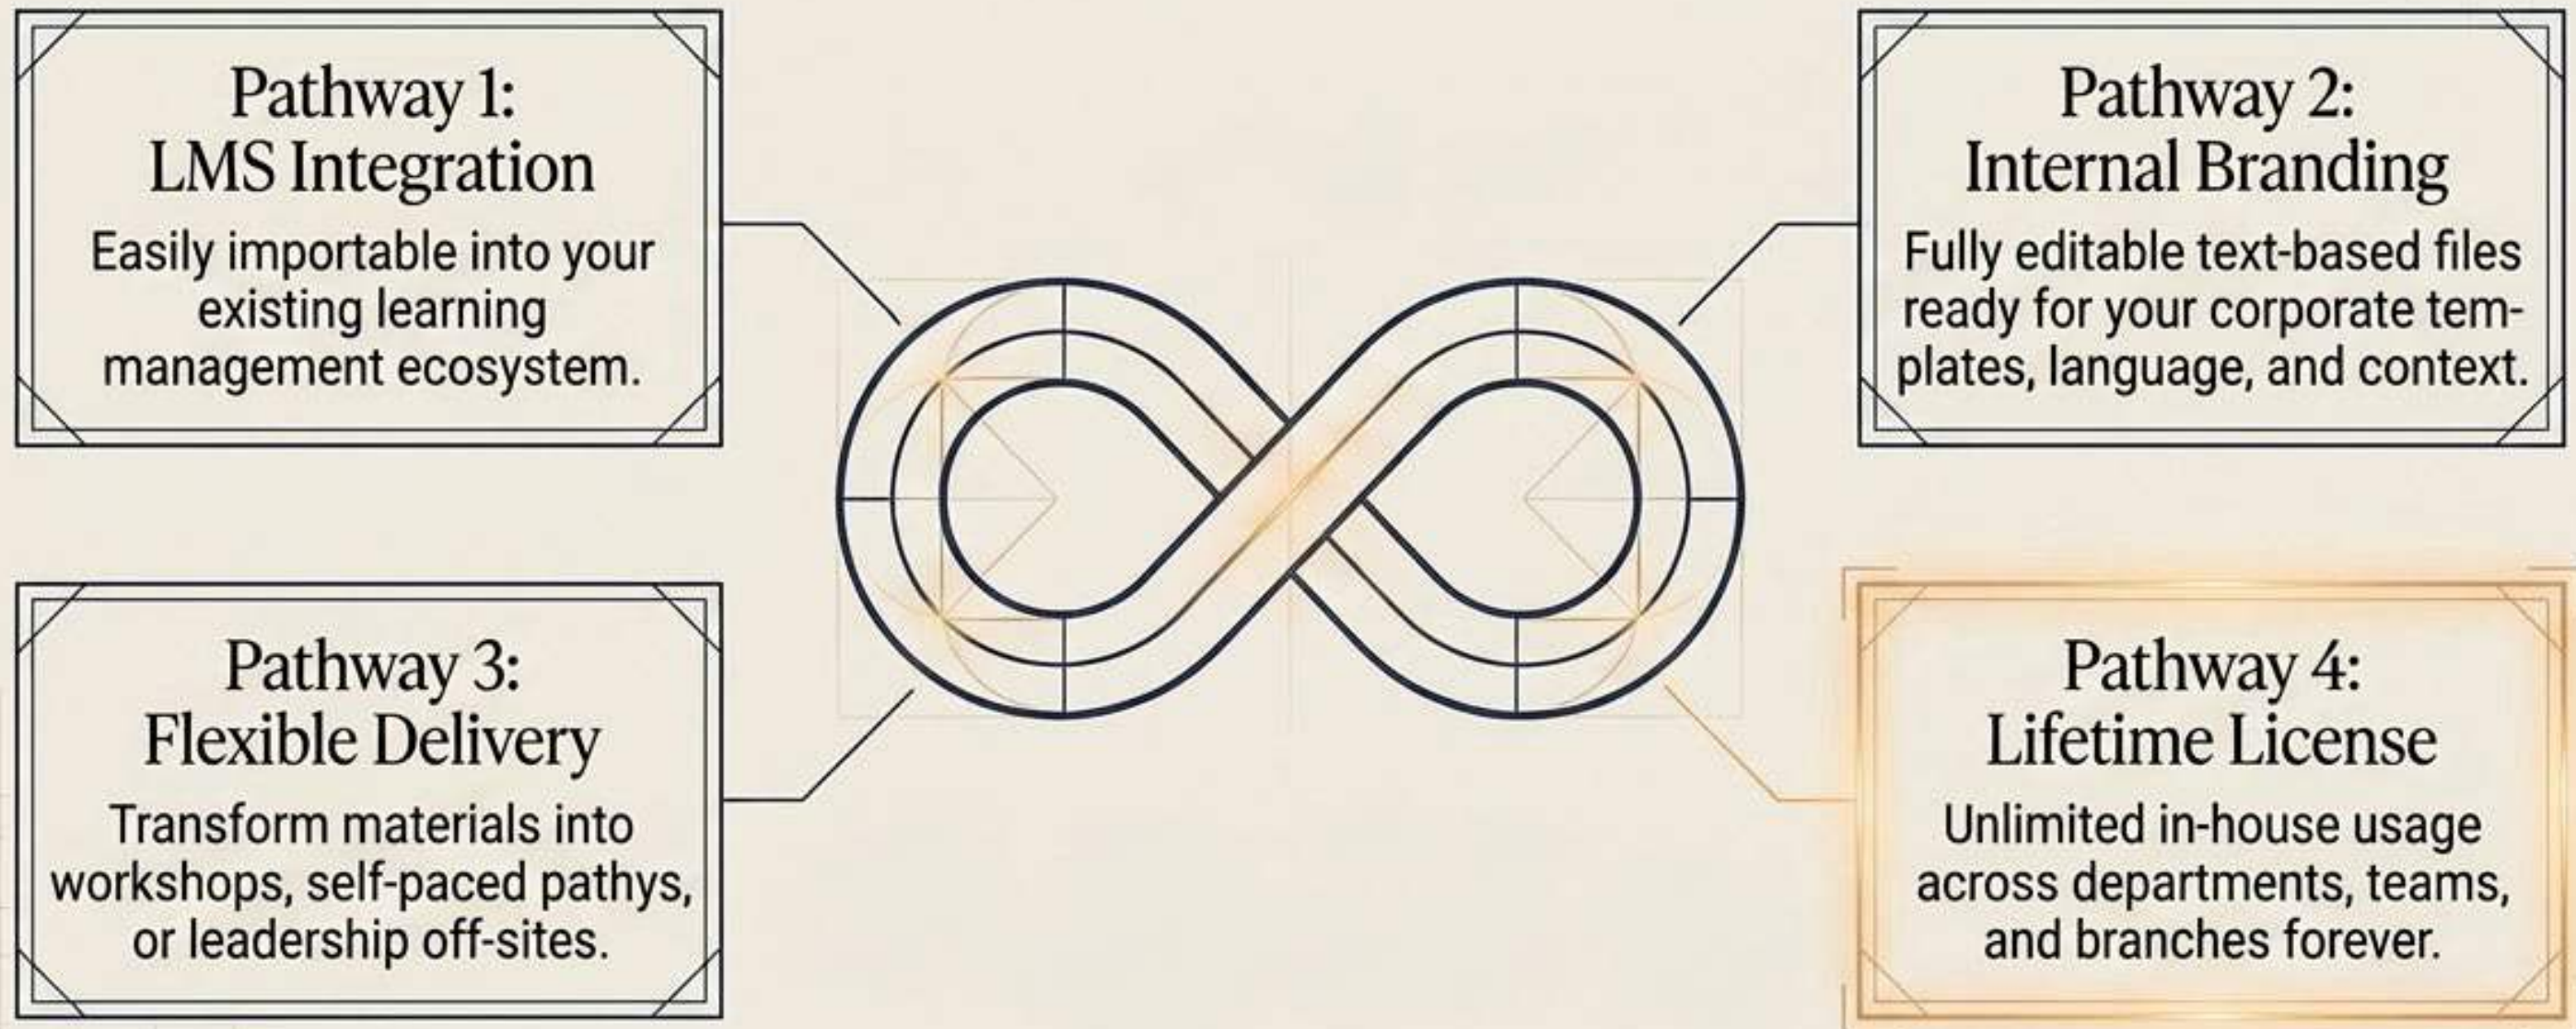

Asset 3: Participant Worksheets

Asset 4: Facilitator Notes & Guidance

Asset 5: Manager Discussion Prompts

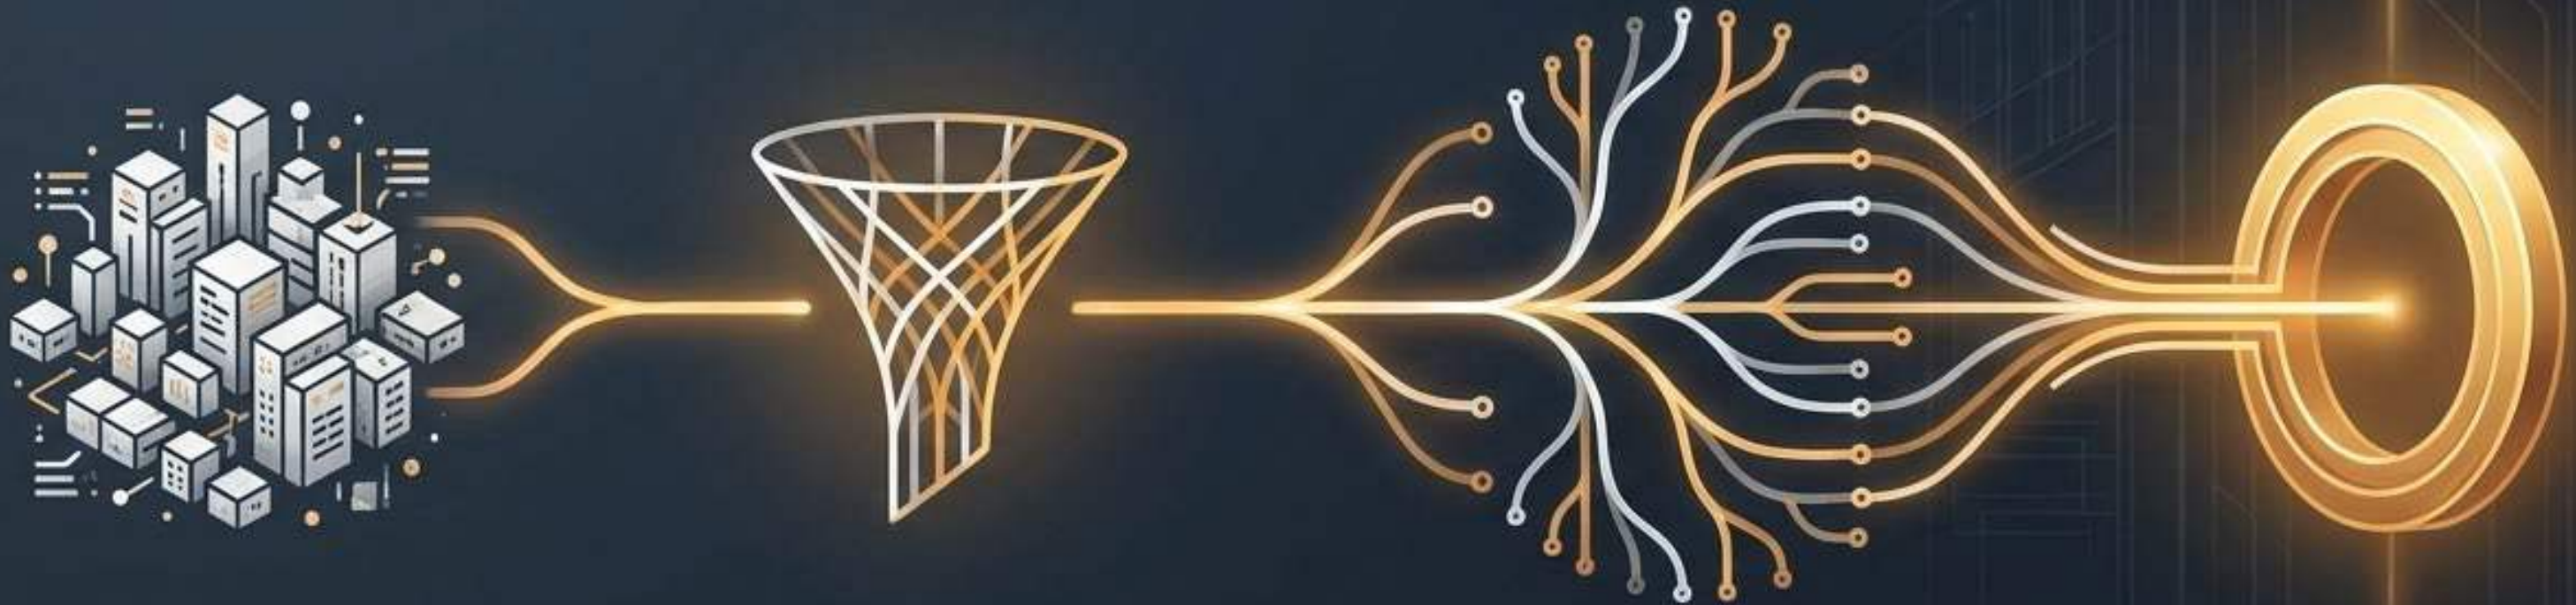

An Owned, Adaptable Corporate Asset

The suite is deliberately editable and adaptable. It is not locked behind a third-party platform; it is built to become part of your organisation's own learning DNA.

The Frictionless Enablement Ecosystem

How raw information seamlessly transforms into everyday corporate capability.

Phase 1: The Input

1,500+ Lessons of raw, comprehensive AI insight.

Phase 2: The Filter

The Adaptability Engine where L&D teams apply internal branding and context.

Phase 3: The Distribution

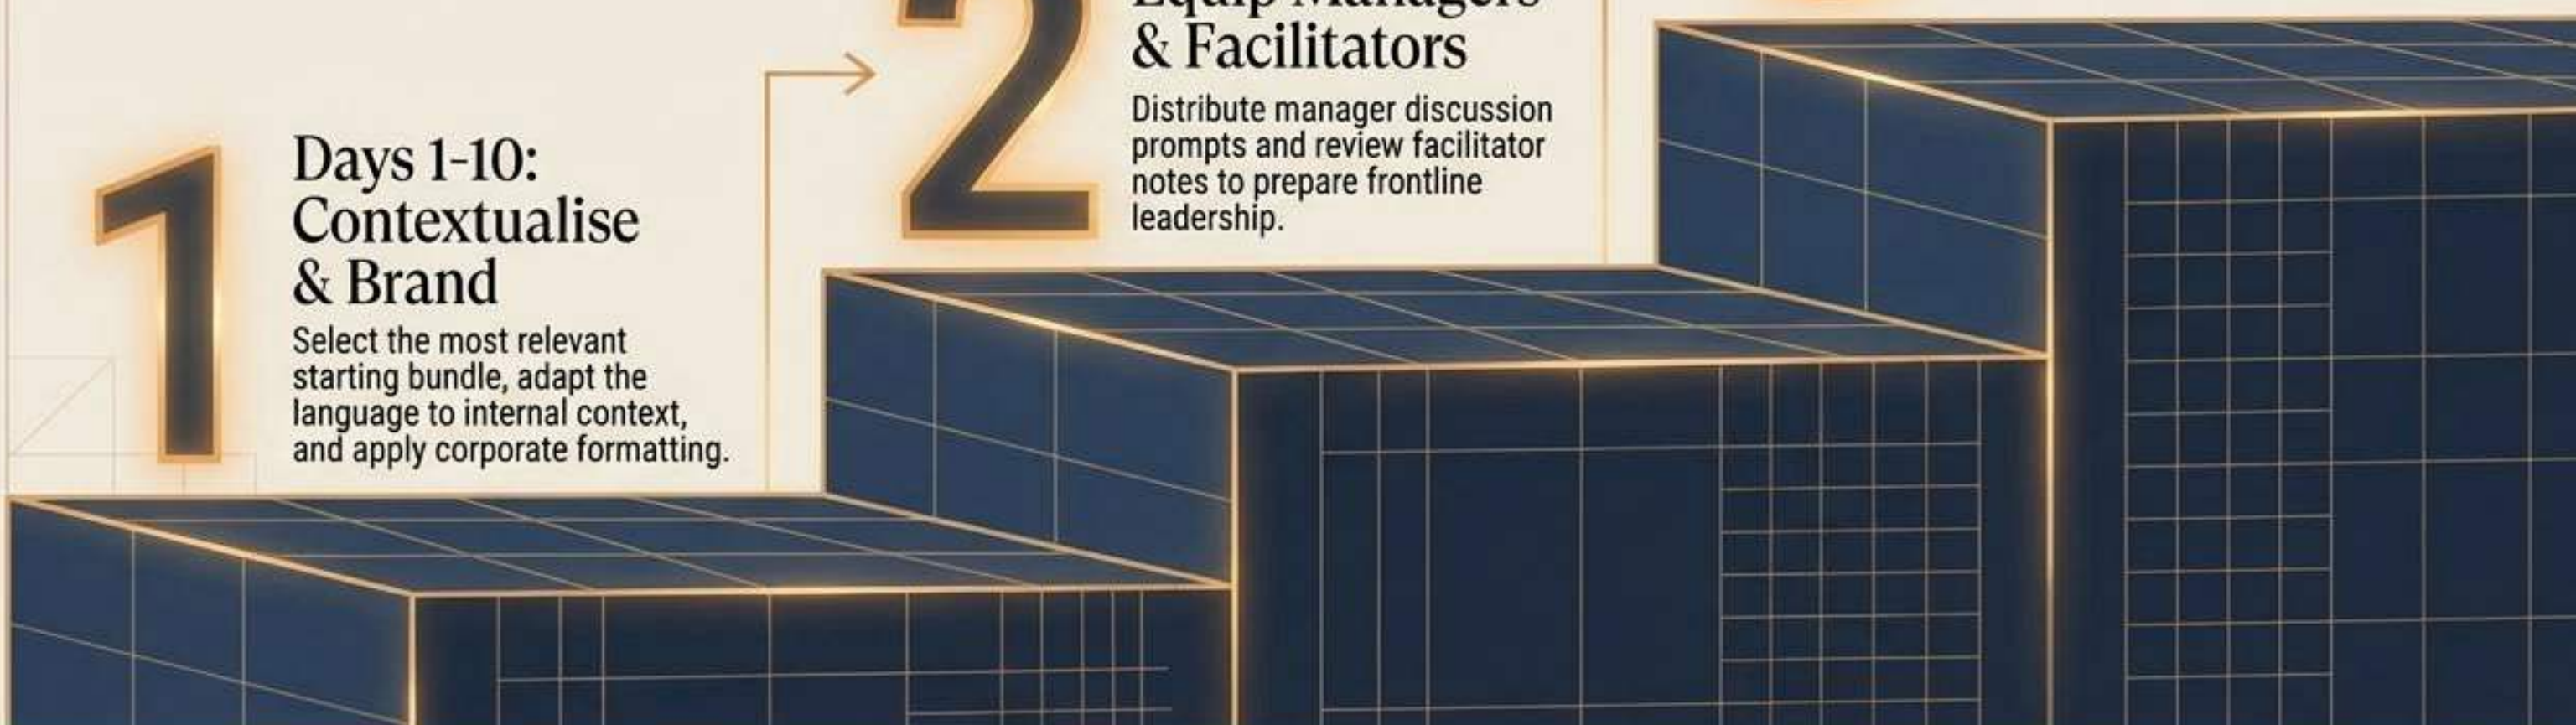

The knowledge branches out through Facilitator Guides and Manager Prompts.

Phase 4: The Output

Everyday Behaviour Change (Clearer thinking, responsible use, confident execution).

The 30-Day Deployment Blueprint

A massive enterprise rollout executed through surprisingly achievable, sequential momentum.

1

Days 1-10: Contextualise & Brand

Select the most relevant starting bundle, adapt the language to internal context, and apply corporate formatting.

2

Days 11-20: Equip Managers & Facilitators

Distribute manager discussion prompts and review facilitator notes to prepare frontline leadership.

3

Days 21-30: Launch Pilot Pathways

Begin using the materials in a pilot training pathway, leadership discussion, or team learning sequence.

The Value Multiplier

The Complete Suite

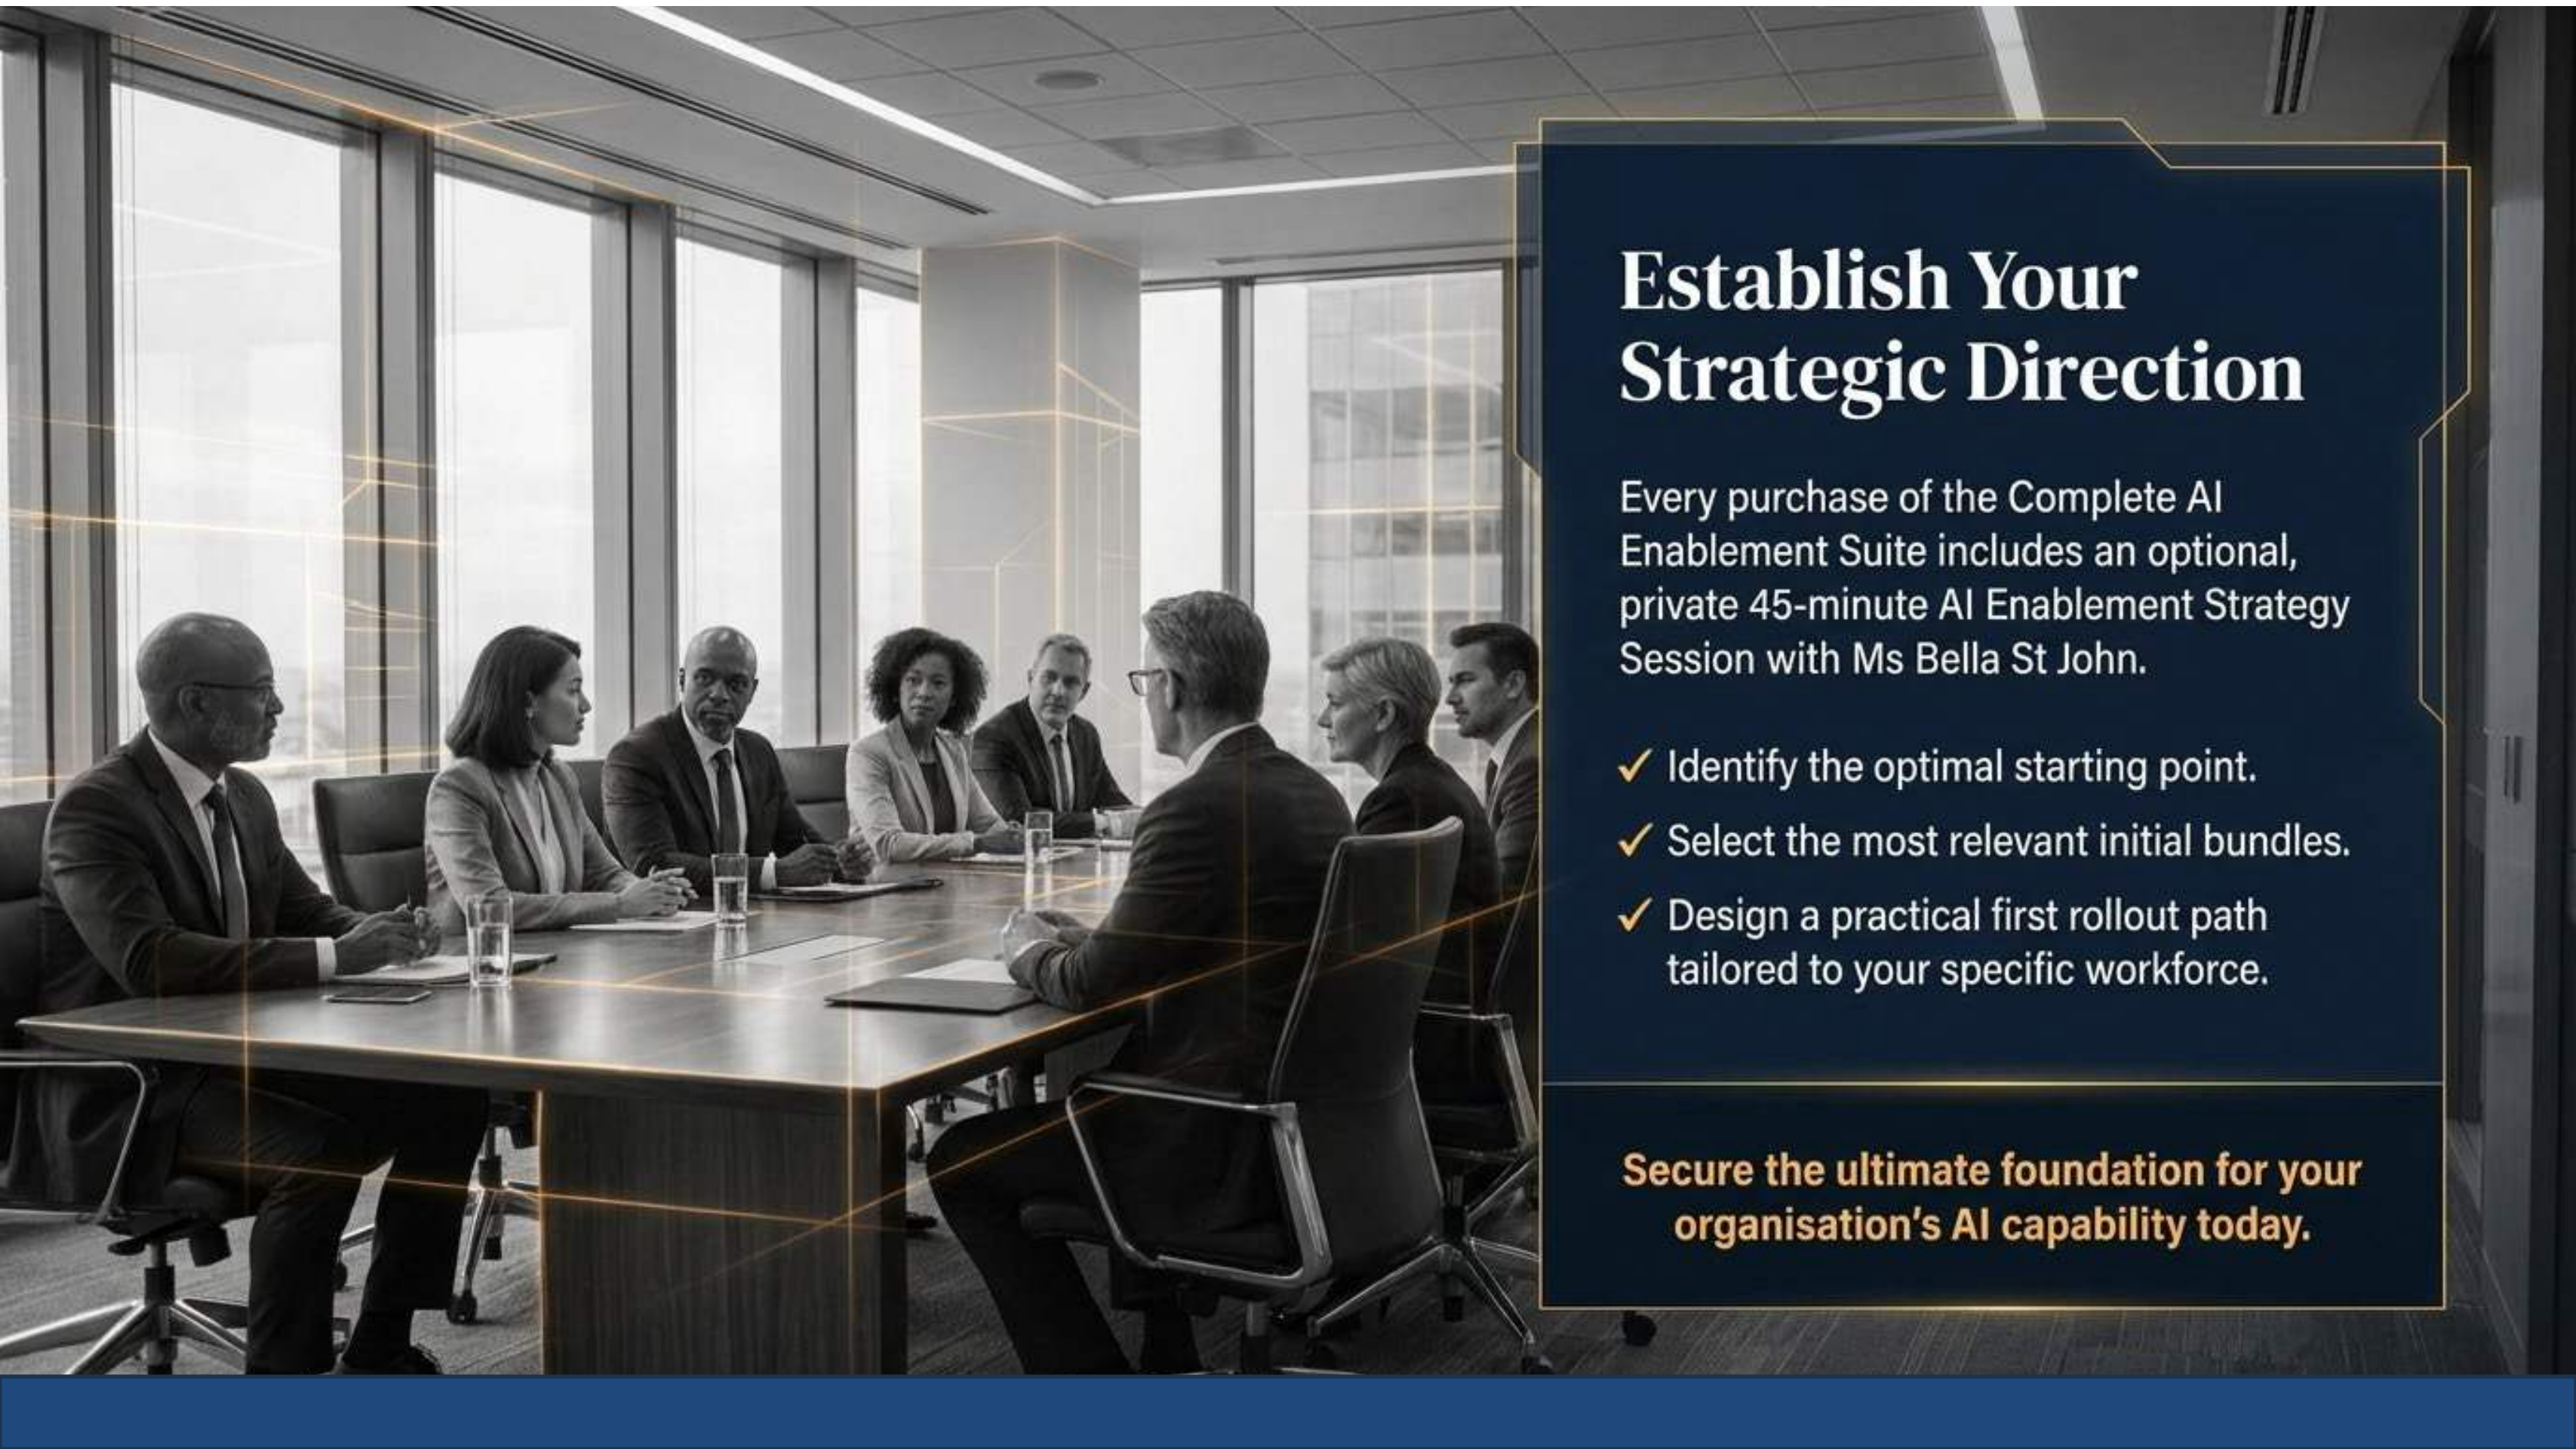

Available for \$9,997 USD. This generates an immediate saving of \$4,958 compared to purchasing the 15 individual bundles at \$997 each.

The Breakdown

This investment calculates to less than \$150 per course for the entire suite of 75+ courses.

The Distinction

This is a flat rate for unlimited organisational use, NOT a per-participant fee. The license remains in-house forever.

Establish Your Strategic Direction

Every purchase of the Complete AI Enablement Suite includes an optional, private 45-minute AI Enablement Strategy Session with Ms Bella St John.

- ✓ Identify the optimal starting point.
- ✓ Select the most relevant initial bundles.
- ✓ Design a practical first rollout path tailored to your specific workforce.
